Certified Professional in  
Logistics  
Management

**SCE-MANAGEMENT**

Affiliate of ISCEA in Francophone Africa

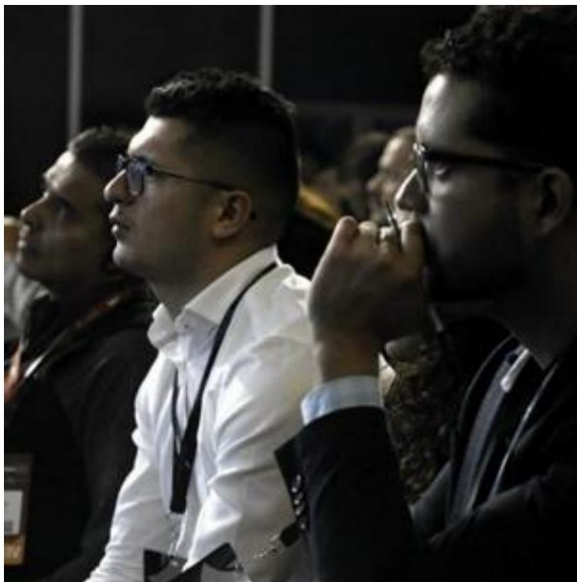

International  
Supply Chain  
Education Alliance

## Take control of your future

ISCEA training and certification programs provide the knowledge needed to improve both supply processes and your career chain.

## Seize the best job opportunities

75 percent of employers prefer to hire certified professionals for supply chain positions, and ISCEA certificate holders get the highest paying jobs.

## Be recognized around the world

ISCEA is the authoritative global resource for accreditation in supply chain trades with certificate holders in 47 countries on 6 continents.

# | INTEGRATED LOGISTICS FOCUS

The CPLM program is designed to help logistics professionals demonstrate a thorough understanding of modern logistics management concepts and skills. Three major areas are covered by the CPLM program, namely (i). logistics overview, strategy and design; (ii). Basic logistics functions, and (iii). contemporary issues.

With the CPLM designation, you are recognized by your peers for mastering common logistics vocabulary, principles, best practices, and decision tools.
